

**UMN 72nd Annual Geotechnical Engineering Conference
February 23, 2024**

Call for Case History Papers

Papers are invited for presentation at the 72nd Annual Geotechnical Engineering Conference, to be held on Friday, February 23, 2024, at the Student Center, 2017 Buford Ave on the Saint Paul Campus of the University of Minnesota (UMN). Case histories documenting the geotechnical performance of foundations, embankments, roadway subgrades, or other infrastructure elements are welcome. The conference typically attracts about 250 engineering professionals who convene to hear expert practitioners and researchers discuss significant projects and current theories.

All papers accepted should follow the format necessary for publication in the proceedings available at the conference. Authors are expected to provide a digital copy of their paper, with a signed copyright release, by December 31, 2023. Presentations are allotted 20 minutes, with five minutes for discussion.

<u>Submission Deadlines</u>	
Abstracts Due	September 30, 2023
Notification of Acceptance	October 31, 2023
Digital Copies Due	December 31, 2023

The presenting author of each accepted paper will be given complimentary registration.

Abstract (< 250 words), with presenting author name and complete contact information, should be submitted electronically to geoconf@umn.edu

The University of Minnesota 72nd Annual Geotechnical Engineering Conference is sponsored by Department of Civil, Environmental, and Geo- Engineering and the Minnesota Geotechnical Society – Geo-Institute Chapter (MGS-GI)
